## Property Characteristics Explanations

<b>Year Built:</b>	The year the primary portion of the house was constructed
<b>Style:</b>	General description of the design of the home (e.g., ranch, split level, cape, etc.)
<b>Roof Cover:</b>	Predominant type of roof material used on the roof (asphalt shingle, slate, wood shingle, etc.)
<b>Exterior Wall:</b>	Predominant type of siding on exterior walls (wood, brick, vinyl, etc.)
<b>Interior Wall:</b>	Predominant wall covering materials for finished areas
<b>Interior Floor:</b>	Predominant floor covering materials for finished areas
<b>Heat Fuel:</b>	Typical choices include gas, oil, electric, geothermal, solar, etc.
<b>Heat System:</b>	References the primary central heat source for the home
<b>Fireplaces:</b>	Indicates yes or no. Indicate any permanently blocked openings, if applicable.
<b>Central Air:</b>	Central Air, it indicates yes, no, or partial
<b>Total Rooms:</b>	Includes all rooms in dwelling except for bathrooms
<b>Bedrooms:</b>	Rooms designed as bedrooms, with at least one (1) window. For homes built after 1950, bedrooms should include direct access to a common hallway and a closet.
<b>Bathrooms:</b>	A bathroom is considered a full bath if it has 3 or more fixtures (tub or shower stall, sink and toilet). Three fixture baths with a shower stall only (no tub), are still considered a full bathroom. A bathroom with only 2 fixtures, typically a sink and toilet, is considered a half bath. The number of bathrooms indicated is for all living units in the dwelling. For example, a house with 1 full bath and 2 half bathrooms would look like 1:2 baths.
<b>Finished Lower Level:</b>	<b>Finished Lower Level</b> includes walls such as sheetrock or paneling, etc., finished flooring such as carpet or linoleum, finished ceilings and Heat and typically includes a walkout basement.
<b>Semi-Finished:</b>	<b>Semi-Finished</b> means that you will have only two to three (2-3) of the following items sheetrock or paneling, etc., finished flooring such as carpet or linoleum, finished ceilings and Heat.
<b>Rec Room:</b>	<b>Rec Room</b> includes walls such as sheetrock or paneling, etc., finished flooring such as carpet or linoleum, finished ceilings and Heat <u>but</u> is located below ground without a walkout.
	Please make any additional comments on the data verification form about basement finish including amount of finish and level of finish.
<b>Garage:</b>	The garage types are as follows: <b>Detached</b> - Garage not attached to main dwelling. <b>Attached</b> - Garage attached to main dwelling. <b>Under</b> - Garage located under the main dwelling.
<b>Additional Information:</b>	Add Additional Information in this space that you want considered.

**DO NOT call or visit the Assessor's office to make changes to this form.**
